DETAILED ACTION

Response to the Appeal Brief

1. The Examiner has reconsidered and withdrawn the finality of the Office Action under 35 U.S.C. 102 (e) rejection because there are two distinct inventions in this instant application. Therefore, the Election/Restrictions requirements as follows:

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to controlling or limiting access by computers on a network to resources on the network, classified in class 709, subclass 229.
- II. Claims 7-15, drawn to limiting access and retrieval of data by weighing words or data or files classified in class 707 subclass 5.

The inventions are distinct, each from the other because of the following reasons:

1. Inventions of groups I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions as group I drawn to controlling or limiting access by computers on a network to resources on the network. Group II is drawn to limiting access and retrieval of data by weighing words or data or files.
2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2142

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. A telephone call was made to Applicant's Agent, Mr. Seymour Rothstein, reg. # 19,369 on 23 March 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS SET TO EXPIRE THIRTY DAYS FROM THE MAILING DATE OF THIS COMMUNICATION. FAILURE TO RESPOND WITHIN THE PERIOD FOR RESPONSE WILL CAUSE THE APPLICATION TO BECOME ABANDONED (35 U.S.C.

Art Unit: 2142

§ 133). EXTENSIONS OF TIME MAY BE OBTAINED UNDER THE PROVISIONS OF 37 CFR 1.136(A).
